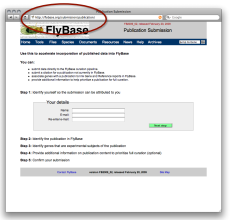
How to Get Your Paper into FlyBase ASAP

http://flybase.org/submission/publication/



Steps

1. Identify yourself so the submission can be attributed to you
2. Identify the publication in FlyBase
3. Identify genes that are experimental subjects of the publication
4. Provide additional information on publication content to prioritize full curation (optional)
5. Confirm your submission

You Can

- Submit data directly to the FlyBase curation pipeline.
- Submit a citation for a publication not currently in FlyBase.
- Associate genes with a publication to link Gene and Reference reports in FlyBase.
- Provide additional information to help prioritize a publication for full curation.

Step 1

Identify yourself
